

Elections & Laws for Life

February 4, 2021

Dear Senator,

I write to advise you that Susan B. Anthony List, on behalf of our more than 900,000 members, will be scoring in favor of amendments during the vote-a-rama that push back against changing the rules to advance a radical pro-abortion agenda. Examples of these amendments include those that prohibit increasing the number of justices on the United States Supreme Court.

Increasing the number of justices on the Supreme Court would be a brazen power grab that would forever politicize the courts and undermine the independence of the judiciary. The Trump administration and this Senate fought hard to seat originalist justices on the Supreme Court who will judge cases according to the constitution and not the whims of culture. Adding seats to the Supreme Court would turn the court into a political machine, controlled by Democrats, who would work against all efforts to uphold the fundamental American principle of the inalienable right to life.

At a time when the most basic protections for life are under extreme pressure from pro-abortion legislators, the pro-life movement cannot afford to stack the deck against life.

We strongly support all efforts to prohibit the expansion of the court and will score in favor of such amendments.

Sincerely,

Marjorie Dannenfelser
President
Susan B. Anthony List
