

Elections & Laws for Life

April 27, 2022

Dear Senator,

I write to advise you that Susan B. Anthony List, on behalf of our more than 900,000 members from all 50 states, strongly supports and will score in favor of S.J.Res. 41, the disapproval resolution under the Congressional Review Act to overturn the Biden administration's 2021 Final Rule on the Title X Family Planning Program. This new rule rescinded the Trump administration's Protect Life Rule.

For too long, Title X Family Planning funding has been a slush fund for Planned Parenthood, as its second largest federal funding stream. The Trump administration's Protect Life Rule required a bright line of physical and financial separation for funding recipients from abortion providers. Under this rule, Planned Parenthood removed itself from the Title X program, choosing abortion over federal funding. Unsurprisingly, they celebrated the Biden administration's new rule undoing the good work of the Protect Life Rule.

Susan B. Anthony List strongly supports this joint resolution to overturn the Biden Administration's 2021 Final Rule on the Title X Family Planning Program and will score in favor of this resolution.

Sincerely,

Marjorie Dannenfelser
President
Susan B. Anthony List
