

Dear Pro-Life Leaders and Activists:

Thank you for your hard work defending and protecting life. I'm personally grateful for everything you do to protect unborn children and their mothers.

As the next Governor of Arkansas, I will be an unequivocal defender of life, keeping Arkansas one of the most pro-life states in the nation.

I understand an eternal truth: every child is a precious gift from God. As Americans, we value life, and it is in our very nature to protect it – it's what makes us who we are. As a mom, I know the love that each of my three children have brought to our family. But my belief is informed by more than faith and experience, it's informed by science. We know unborn babies can feel pain. They have faces, a heartbeat, and a soul.

We're at a monumental moment for the pro-life cause. The Supreme Court is poised to render a decision in *Dobbs v. Jackson Women's Health Organization* that could significantly erode or even overturn *Roe v. Wade*, finally returning the decision to protect life to the people and their duly elected officials.

It is time to do away with *Roe v. Wade*, and when we do, we need strong, conservative leaders in our states leading the battle for a culture that celebrates and protects life. For too long, pro-life Arkansans have been stymied by activist courts from enacting life-saving legislation.

In the aftermath of the *Dobbs* decision, I will fight to ensure Arkansas implements and enforces the strongest pro-life protections possible and provides care and resources to expecting mothers facing vulnerable situations.

This year, pro-life Arkansas lawmakers approved \$1 million for pregnancy resource centers. These centers are a critical piece of the pro-life movement, walking with and serving women and their families. I promise to do everything in my power to support and continue this program, so that every woman knows her full range of options and that she is loved and cared for every step of the way.

The radical left sees the tidal wave coming and is actively working to overturn our lifesaving laws and destroy our ability to protect life. They support abortion on-demand, up until the moment of birth, paid for by the taxpayers. I will fight this extremism at every turn.

We have much work to do to prepare for a world where we can truly protect life. First, we must win this race. I can only be the most pro-life governor with your help. I urge you to volunteer to phone bank, go door-to-door, educate your friends and family, and most importantly, vote.

For our nation to remain great, we must stand up for the intrinsic value of every human life – especially the most innocent and vulnerable among us who can't defend themselves. I look forward to partnering with you as we continue to advocate for the most fundamental right of humanity: the right to life.

Sincerely,

A handwritten signature in black ink, appearing to read "Sarah Sanders". The script is fluid and cursive, with the first name "Sarah" and last name "Sanders" clearly distinguishable.
